NEWSPAPER PLANT DESTROYED.
General Bell issued a statement to-day regarding the raid on the Victor Record office last night, in which the newpaper plant was destroyed, causing a loss of \$5,000. General Bell emphatically condenns the act, and says the perpetrators will be landed in the bull-pen if apprehended. Editor Tyner, of the Record, said to-day that he did not believe union miners wrecked his office, because of his elitorial advising that the strike be calved off. He said union miners approved his course.

### HAY CABLES TO THE **CONSUL AT TANGIER**

Sends Instructions How Consul Gummere Should Deal With Raisuli.

With Raisuli.

(By Associated Press.)

WASHINGTON, D. C., June 9.—Secretary Hay to-day cabled Consul-General Gummere at Tangler instructions for dealing with the brigand Raisuli, the point of which is a positive injunction to refrain from committing the United States government to any guarantee of immunity for the brigands or in any way to take any action that would amount to the recognition of the right of brigandage and blackmail in Morgeco. This attitude will be adhered to regardless of consequences to Perdicaris.

A cablegram received at the State Department late this afternoon from Consul-General Gummere at Tangler, dated to-day, states that negotiations for the release of Perdicaris and Varley are still in progress, but that the Sultana's reply to Raisuli's demands as to ransom have not yet reached the bandit.

DOCTORS DISCUSS THE CASE.
Dr. Draper says it is hard to explain Renfro's condition.

"It would not be remarkable if he had merely been stricken speechless under certain conditions of hysteria," said he, but in such an event there would have been physical conditions that he did not have. Saimatze,

(By Associated Press.)

ST. PETERBURG, June 9.—All Japapese movements are interpreted here as daused by anxiety to hamper as much as possible whatever movement General Kuropatkin may be making to help Port Arthur. Not only have the Japanese bombarded the west coast of the Liao Tung Peninsula, where the railway runs close to the shore, making felnts of debarkation, but General Kuroki has assumed the offensive eastward. He has sent an overpoweringly strong column that drove out the Russians from a fortified position at Saimatze, twenty miles northwest of Feng Wang Cheng, inflicting a loss of one hundred men. The authorities say that they are without information concerning the fight at Saimatze beyond the official dispatch that was made public fornight, but that the Russian withdrawal was quite in accordance with General Kuropatkin's prearranged plan, although the Russian losses indicated stubborn fighting. Military critics profess to be not altogether certain whether General Kuroki's movement means a real advance or is simply a feint to distract Russian attention from Port Arthur, but they incline to the latter view.

TOKIO. June 9-Noon.-Admiral Togo reports that on the night of June 7th he

sent eight small torpedo boats from the hattieships of his squadron to make a reconnoissance of Port Arthur harbor. The boats went for inside the heads and were exposed to the Russian fire. One railor and one petty officer were killed in the operation, but the boats escaped undsmaged. Admiral Kataoka reports that on June 6th, he landed men on San Sibin and Taku Islands, in Tallen Wan Bay, for the purpose of making a reconnoissance. They found many buildings there only partially destroyed. In the hospitals some supplies were also found, the built of "Crump, Guardian, etc., vs. Dallan and Others," the undersigned special commissioners

### THE FLOWERS OF JUNE.

June is a happy month in the garden. The first fruits of the harvest are already maturing, while the sowing for future harvesting is still in progress. The well planned garden now bursts into a glory of bloom that is more welcome than at any later time of the summer, appealing to our delighted senses with a freshness of interest that is unique in the garden season.

of flowers seems very fitting during these leafy days, when nature seems so perfect in June, also, the first exquisite petals of the popples disclose their marvelous beauty. In wonderful variety of form and color, they render the garden respienden in the morning sun, the mecca of a host of winged bees that gather pollen from the beautiful treasure houses. Popples are pre-eminently outdoor blossoms, yet they may be used indoors for the making of flower pictures, that are all the more prized because of their brief existence. Cella Thaxter first showed to what advantage these blossoms may be used indoors. Her study at the Isles of Shoals was daily ablaze with poppy blooms in exquisite flower glasses of many sorts. Sho gathered the expanding blossoms early every morning, before the dew had disappeared, putting the stems in water at once. Thus treated, the flowers remain fresh throughout the day.

Her Graduation Dress. Her Graduation Dress.

When Ethel rose to speak her piece
On graduation day,
She looked upen a gorgeous class
Of girls in glad array,
And her young heart was filled with
peace,
And joy, and happiness,
Because she knew they envied her
Her graduation dress.

And so she made her little bow.
And said her little say,
The envy of the gorgeous class
Of girls in glad array,
No one recalls a word she said,
But even now, I guess,
Those girls could tell you all about
That graduation dress,
